---

## About us

Numbe Group is a renowned 3D design studio based in Andorra, Spain and the Philippines that leads the digital transformation of the real estate sector.

We offer 3D design and interactive virtual reality services for new real estate developments, as well as other solutions in the real estate sector. Furthermore, within the business group, we have a communication agency that helps improve the communication of companies and real estate promotions.

## What do we do

The first step to being able to work together is to identify what your project is like.

At Numbe Group we have two types of services within the 3D design department:

- **New constructions**

Here we find large buildings, shopping centers, resorts, residential buildings and other constructions that are already being built or will begin to be built soon.

- **Renovation and interior design projects**

Here we have projects for buildings, apartments or common areas that are already built but that need an aesthetic renovation.

## New constructions

If you are building your new project, at Numbe we offer you 3 digital services that will boost the communication and sales of your project.

- **Renders**

Hyperrealistic 4K or 8K images

- **3D animated video** [Example](#)

Hyper-realistic 3D animated video 1080 | 4K | 8K

- **Interactive virtual reality** [Example](#)

The latest in the industry. A revolution to show real estate through virtual and interactive reality.

## Renovation and interior design projects

If you are thinking of renovating a building, an apartment or any premises, with our help your project will have a modern, current vision and easy to communicate on websites, social networks and others. We offer you:

- **Virtual renovation**

You send us a photo and we renovate the space virtually. We choose the furniture, colors and styles that best match your style and create a virtual recreation that will multiply your sales or rental possibilities.

Example of virtual renovation below.

 **Virtual renovation**

 **Virtual renovation**

# Our projects

## Featured

Our designs are made with the latest software on the market, the 3D Studio Max 2023 program and the Vray Render engine. In addition, all images are retouched with Photoshop, achieving a perfect design and turning them into an excellent sales tool.

Our team has extensive experience in international projects and adapts to all projects of greater or lesser magnitude.

You can see all our projects on our website.

# Why Numbe?

At Numbe we offer a 360° service for your future real estate development. We make the 3D designs and culminate it with a marketing, graphic design and sales strategy since our company also has a digital marketing agency #NumbeKomm

## Quality

We work with the best software and achieve the best quality on the market. Up to 8K.

## Marketing

We create the website, social networks or the corporate image of your project. We also record 4k images with drones for advertising.

## Follow-up

We will be in contact throughout the entire project, monitoring the news weekly.

## Trust

Our clients and our experience support us. We will respond to your trust with excellence at work.

## Next steps

1. We meet, in person or online.
2. You tell us your project.
3. We send you a budget.
4. We start working.
5. Weekly project monitoring.
6. Delivery of the 3D project.
7. Delivery of the website, logos and corporate image and social networks. (optional)
8. Monthly monitoring of the marketing and social media strategy. (optional)

### **Together, we will redesign the future.**

We came to redesign the way of working in the real estate sector. Join the hundreds of companies around the world that trust us and make your project the next. Join the digital transformation in the sector.
